

PN10. Max. 110°C
DN20: 1" x 130 mm - Kvs 15
DN25: 1 1/2" x 180 mm - Kvs 21
DN32: 2" x 180 mm - Kvs 21

The image shows a central brass magnetic filter with a pressure gauge. To its left are icons: a person with a trash can (crossed out), a person with a thumbs up, a magnetic field warning symbol, and a heart with a slash. To the right are four diagrams of the filter in different orientations: top, bottom, left, and right. The top, bottom, and right diagrams have a red 'X' over them, while the left diagram has a green checkmark.

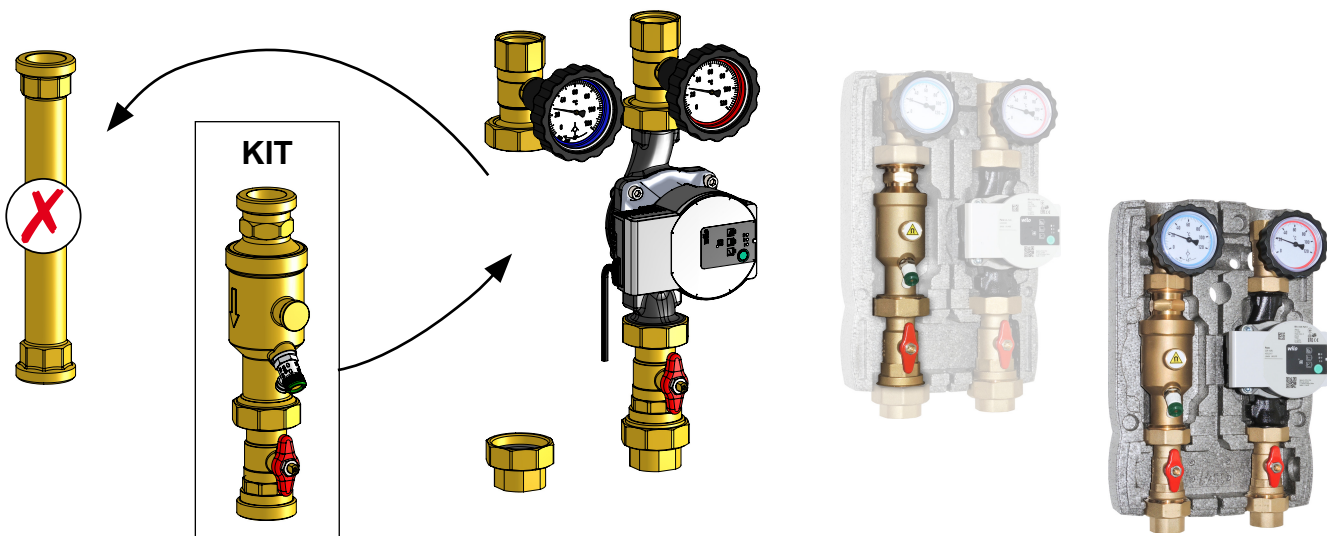

A calendar icon shows 'JAN' and a '1 Year' arrow indicates the maintenance interval.
